#### Notes:

1. A number of changes above reflect events in connection with the filming of the forthcoming Warner Brothers film 'Dunkirk'. Modified Yak-52TW N699DP arrived at Oaksey Park on 15 May 2016 and flew to Dunkirk after re-assembly on 24 May. It has a Spitfire-shaped front cockpit, extended wingtips and other modifications and is referred to as a 'Yakfire'. Spitfires G-AIST and G-CGUK have also acquired temporary markings for filming, with the latter carrying the same marks as the 'Yakfire'.
2. Tiger Moth DE470 (G-ANMY) crashed on take-off at Brimpton on 5 June 2016.
3. Canberra WK162 has been acquired by the Vulcan To The Sky Trust and should move by road to Doncaster Sheffield Airport in due course to begin restoration to flight status.
4. As expected, Martin Baker's second Meteor T7(mod) became G-JSMA on 25 May 2016.
5. The move of XT634 (G-BYRX) to AAIB at Farnborough seems a little unusual as we are unaware of it having suffered an accident. Normally aircraft going there are subsequently disposed of but it will remain listed until its fate is sealed.
6. The Jaguars and Lynx at Upminster are stored at the Delta Force facility here. The Jaguars and eight Lynx are likely to be dispersed to other Delta Force sites around the UK in the coming months.
7. Hercules ZH883 wears special markings celebrating 50 years of RAF Hercules operations.
8. 845 NAS departed RAF Benson in mid-June to join 846 NAS at Yeovilton, with the last aircraft arriving on 16 June 2016.
9. Thanks in the main to Tom McGhee's UK Serials Resource Centre, a number of new allocations have come to light for aircraft on order.
