Notes:

1. This month sees another large list of BAPC register allocations, thanks to Lloyd Robinson.
2. Harvard KF183 has been retired after no less than 73 years of service and has apparently been sold.
3. Sentry ZH107 has recently been rolled out in special marks for the centenary of 54 Sqn while compatriot ZH106 has recently lost its special marks.
4. Hercules ZH866 has received special markings for the centenary of 206 Sqn.
5. Atlas C1 was delivered to Brize Norton on 16 September 2016.
6. A series of new allocations is also included in this update. It would appear that the Airbus helicopters will take the HT1 designation and potentially that the Poseidons will use the designation MR1 but the latter seems less definite at present.
