Notes:

1. This update follows the recent publication of 'Military Aircraft Markings 2009' and is the first update for that edition.
2. Hurricane BE505 is shown at its new base at North Weald. Alas it was damaged on landing at North Weald on 11th March 2009 but the damage is not believed to be substantial.
3. This month's update sees a considerable number of Gazelles heading to storage at RAF Shawbury and the consequent disbanding of the units operating these machines including 3(V) Flt, 6(V) Flt (last sortie 27th February 2009), 12 Flt, 658 Sqn and 666(V) Sqn.
4. Lynx ZD251 recently made its last flight from Yeovilton to Middle Wallop, where it will be used for spares.
5. Merlins ZK160 to 165 are the six which replace those diverted back to the RAF from the original Danish order. ZK160 has already been noted outside at Yeovil.
