Notes:

1. Boscombe Down's new Agusta 109 has finally been delivered. However the machine it is due to replace, ZE416, has also been seen flying within the last month.
2. Sadly this month sees a large number of Harriers being withdrawn as the fleet works towards retirement. It is understood that aircraft at Warton and Boscombe Down are also being withdrawn from use and so it is only a few short months before it appears that the Harrier will no longer be seen flying in UK skies.
3. The serials of the three ex USAF RC-135Ws believed to be heading for the RAF have changed (see above).
