#### Notes:

1. Wessex XT453 appears to be based at HMS Sultan but lives a fairly nomadic existence, appearing recently at Culdrose having had a repaint.
2. XW211 crashed in a field near Andover. It seems likely that it will be placed on the HC2 conversion line and be repaired but time will tell!
3. XW232 is the first Puma HC2 to fly, having taken to the air again on 21 June 2011, complete with new engines and a digital flight control system.
4. Hawk XX157 is still in use with FRADU at Culdrose where, in late July, it was wearing 'Oyal Navy' titles on its port side!
5. By late July the only ex-Navy Jetstream left at Culdrose was ZA111, which is in use with the SFDO and minus its engines.
