Notes:

1. BBMF Spitfire P7350 has recently been repainted to wear the code EB-G of 41 Squadron.
2. The repainting of Vampire XE856 has recently been completed and it now wears 219 Squadron markings and the code V on the nose wheel door.
3. It is increasingly evident that to try to keep track of the Tornado GR4 fleet by squadron is a pointless exercise given that it is operated at both main bases more on a pool basis and very few aircraft carry squadron markings that relate to the pilots flying them. Thus common sense dictates that the easiest way is to list aircraft by the wing that they are assigned to and that list appears in this update.
