**Notes:**

1. Tornado GR1 ZA319, currently at Arncott (Oxon) has been secured for the Boscombe Down Aviation Museum at Old Sarum. It is not clear yet when it will be moved.
2. With the recent delivery to Cambridge of Hercules C5 ZH888, just one of the type, ZH889, remains in service.
3. On 9 December 2020 the final eight 673 Sqn Apache AH1s flew out from Middle Wallop in formation to join the rest of the UK fleet at Wattisham.
4. A number of Prefect T1s have started appearing with small, two-digit codes on their tails.

5. On 26 November 2020, the RAF's four latest T-6C Texans were put on the UK register with MOD Defence equipment and Support as the owner. This should be a temporary measure.
6. While it is still reported that they have been sold to the USA, it is also evident that presently the stock of former RAF Tucano T1s is still in the UK. I will publish the list in full in the next update.
7. Finally, the first of five Boeing 737s which will be converted for the RAF's Wedgetail contract is N946BC (MSN 38633). It is due at the STS facility at Birmingham (UK) early in January. Delivery is not due until 2023. As yet it is not clear what these aircraft will be called when in RAF use.
