Notes:

1. Spitfire T9 MJ772 has been taken off the UK register as sold to the Netherlands on 25 October 2021; as yet its new Dutch identity is unclear.
2. Former Naval Aviation Sea Fury VX281, which was badly damaged in April, has been restored to its former identity of G-BCOW on 11 November 2021 and sold to The Fighter Collection.
3. Jaguar T4 XX841 was registered in Australia as VH-UXB on 28 October 2021 to a company called Miltek Aviation Pty Ltd.
4. Lynx AH7 returned to flight again on 18 November 2021 - another amazing feat from the organisation at Chard. This is currently the only Lynx AH7 flying. Lynx XZ678 has now joined the UK register, raising the prospect of three of the type in the air before long.
5. As if a Lynx AH7 flying again and the prospect of a Jaguar back in the air wasn't enough, potentially the most surprising recent development has been the allocation of US civil registrations to four VC10s! Currently the register states that these are 'Assigned', not 'Registered' and that 'the aircraft's registration status may not be suitable for operation'. Further investigation reveals a number of organisations involved in the documentation relating to these and, among them, Kepler Aerospace Ltd. The Kepler web site states that ZA150 has been acquired with the aim of getting it 'flight ready' and that the other three aircraft 'are also to be acquired'.
6. Tornado ZA319 has finally moved to Old Sarum and was reassembled with the help of JARTS during mid-November.
7. As widely reported, it seems likely now that the eventual owner of the RAF's Sentinel fleet (ZJ690 - ZJ694) will be the US Army.
8. The last three Squirrels on the UK military register were all put on the civil register on 9 November and then sold on to Canada two days later, while Griffins ZJ240/G-BXIR, ZJ242/G-BXDK and ZJ707/G-CBUB, all also former Draken Helicopter Academy machines, were likewise sold to Canada between 11 and 18 November 2021.
9. The RAF lost its first F-35B when an unknown machine crashed into the Mediterranean on 17 November 2021. Fortunately, the pilot ejected safely.
10. The eighth Poseidon MRA1 for the RAF, ZP808, was delivered to Lossiemouth on 16 November 2021.
11. Single-seat Typhoon ZR505 was noted outside at Warton on 25 November 2021 and indeed had its first flight later that day.
